

Throughout the Year 11 Accounting course we will build on the learners' ability to have confidence in their own skills and think about the impact of decision making on the future. Learners will be encouraged to embrace challenges positively and develop their ability to self manage their learning. We strive to provide opportunities for learners to work collaboratively to solve problems and communicate effectively to users of financial information.

We aim to enable our learners to be effective communicators of ideas and be prepared to go into their community as confident, financially literate individuals.

The key areas of learning in Year 11 Accounting are;

- Understanding of the importance of managing personal finances for future security
- Understanding financial concepts and conventions inline with professional practice
- Select, process and present financial information for a variety of users
- Prepare comprehensive financial reports for users to make informed decisions
- Analyse and interpret financial information and provide recommendations for improvement
- Prepare and present financial information for a community organisation including analysis of their management of funds

Key skills developed in Year 11 Accounting are;

- Accuracy and clarity of presenting information
- Understanding of how decisions impact on successful outcomes for an entity
- Ability to analyse and provide advice to a variety of users of financial information
- Critical evaluation of information and its validity

Learning opportunities include;

- Opportunities to self manage learning through topics
- Variety of teaching and learning experiences to help learners assess which is most effective for their learning
- Choice of context to apply understanding to
- Individual and group tasks which allow for independent learning as well as collaborative opportunities
