

Throughout the Year 11 Economics course we will build on the learners' ability to have confidence in their own skills and think about the impact of decision making on the future. Learners will be encouraged to embrace challenges positively and develop their ability to self-manage their learning. We strive to provide opportunities for learners to work collaboratively to solve problems and communicate effectively.

Topic	Overview	Assessment
Interdependence of sectors of the New Zealand Economy	<ul style="list-style-type: none"> <li>• Circular Flow Model – interdependence of sectors of the economy</li> <li>• providing an explanation of the impact of an event on a sector and flow-on effects to other sectors</li> </ul>	Internal AS90988 1.6 (3 Credits)
Government choice where affected groups have different viewpoints	<ul style="list-style-type: none"> <li>• Provide an explanation of the economic decision the government must make</li> <li>• collect information from groups with differing viewpoints</li> <li>• Identify the costs and benefits of options</li> <li>• Justify a recommendation by providing an explanation of a recommendation on the option the government should choose.</li> </ul>	Internal AS90987 1.5 (4 Credits)
Consumer choice using scarcity and demand	<ul style="list-style-type: none"> <li>• Consumer choices refer to economic decisions a consumer makes - scarcity, opportunity cost and consideration of values.</li> <li>• Demand using demand curves and schedules</li> <li>• Choices a consumer makes in response to a change in price or non-price factors</li> </ul>	External AS90983 1.1 (4 Credits)
Producer choice using supply	<ul style="list-style-type: none"> <li>• Choices a producer makes in response to a change in internal or external factors affecting supply.</li> <li>• Explain the flow-on effects for the producer, clearly illustrating changes using the supply model.</li> </ul>	External AS90985 1.3 (3 Credits)
Consumer, Producer and Government choices affect society, using market equilibrium	<ul style="list-style-type: none"> <li>• Producer, consumer and/or government choices affect market equilibrium</li> <li>• Illustrate changes using the supply and demand model.</li> <li>• How producer, consumer and/or government choices affect market equilibrium with detailed explanations of how those changes affect different sectors</li> </ul>	External AS90986 1.4 (5 Credits)

Achievement Standard Number	Subject reference	Version number	Topic/Title	Mode of Assessment	Credits
90988	1.6	3	Interdependence	Internal	3
90987	1.5	3	Government Choice	Internal	4
90983	1.1	3	Consumer Choice	External	4
90985	1.3	3	Producer Choice	External	3
90986	1.4	3	Markets	External	5

**19 Credits (total)**
